EXPERIENCE

Frontend Developer

Amrsoftec | Mohali, Punjab | January 2025 - Present

- Converted UI/UX designs into responsive and interactive websites using HTML5, CSS3, JavaScript, WordPress, Shopify, and Next.js.
- Developed modern, mobile-first layouts ensuring cross-browser compatibility and optimized performance.
- Built reusable UI components and responsive layouts using Tailwind CSS and Bootstrap.
- Deployed and managed websites using Vercel, GitHub, and modern CI/CD workflows.
- Customized and maintained WordPress and Shopify themes, improving website functionality and user experience.
- Collaborated with designers to convert Figma and UI designs into production-ready websites.
- Integrated APIs and dynamic content to improve website functionality and user interaction.
